AIR CONDITIONING STARTUP SERVICES

Air Conditioning System Installation & Repair:

Our team of licensed professionals can properly size your new system for your residence or business. Whether it's a new installation, or repair to an existing system, we've got you covered!

Air Conditioning Startup Service:

ANNUAL SPRING STARTUP SERVICE:

- ◆ Replacement of system air filter (standard sizes)
- ◆ Cleaning of both condenser and indoor evaporator coils
- ◆ Clean and check all condensate pans, drains, cycle condensate pump and treatment additive for clean condensate operation
- ◆ Check all electrical controls and connections in addition to all motors and compressor
- ◆ Check all refrigerant Freon levels for proper operation. Inspect all system air ducting and required CFM for the most efficient system operation.
- ◆ Lubricate all bearings, motors and grease fittings
- ◆ Cycle entire air conditioning system and make necessary corrective adjustments.

Automatic Customers Save on Air Conditioning Services

Our automatic heating oil and propane customers save \$20 on their yearly air conditioning startup. Automatic customers enjoy these and many other discounts on quality heating and cooling services, as well as a preferred labor rate for all service related work.
