The D'Amato Family

NEW EQUIPMENT FINANCING OPTIONS

Our company has a wide array of financing plans to suit your budget. These plans allow you to spread the cost of your new heating or cooling equipment purchase while making things easier for you and your family. Our financing program allows you to attain the best equipment available, and make it affordable.

All financing is provided on behalf of GE Capital.

No Monthly Interest if Paid in Full within 12 Months or 26.99% Interest
5.99% APR Until Paid in Full – 37 Months
7.99% APR Until Paid in Full – 47 Months
9.99% APR Until Paid in Full – 132 Months

GE Capital provides you with an approved line of credit to make heating and cooling installations/upgrades to your home. This line of credit is also flexible if you outgrow your credit line or if you need to make additional improvements.

Steps:

1. Receive a detailed quote from our service department for your new installations.
2. Fill out the GE finance application.
3. We submit your completed application for the amount of your quote.
4. Approval process.
5. Installation of your new equipment.
6. Sign GE finance sales slip.
7. Start paying GE for your new installation.
8. Rest assured that your new equipment will serve you and your family for years to come.

Note: Our service department quotes all installations with only superior makes and top quality parts. We do not purchase discount, used, aftermarket or refurbished parts. In addition, if installing a hydronic system – all boilers are cast iron and built to last unless otherwise specified. Our philosophy is that if you are going to invest in a home heating or cooling appliance, only invest in something that will last a good part of your lifetime. Installing new heating or cooling equipment will greatly reduce your fuel and electricity consumption, enabling you to save money right away as well as see significant savings in the long run.
