

The D'Amato Family

Premium Heating Oil | Propane | Diesel | Pellets | Heating | Cooling

STORAGE & MAINTENANCE TO **SAFEGUARD YOUR FAMILY**

Our company owns and maintains an advanced storage and supply network to safeguard your family from disruption in delivery. Our supply relationships and storage allow us to ensure prompt uninterrupted delivery of premium home heating oil and propane.

In addition, our propane storage assets afford us significant buying power and access to terminals nationwide to ensure no disruption in supply. Our large whole facility generator also allows our company to operate uninterrupted when nature is at its worst. For customers with standby generators, we are setting the standard for reliability and deliverability.

Our fleet of delivery trucks, service and support vehicles are all maintained by our in-house repair facility. Our facility and its staff allow for in-house repair and on-road response to make sure our fleet is up and running smoothly.

All this peace of mind, in a family company you know and trust.
